# SEEK FIREBUG IN NINE FRISCO

SAN FRANCISCO (AP)-A firebug, described by one witness as a pimply faced, giggling 6-footer, left a fiery trail through downtown San Francisco Monday night and early today.

Police and fire officials pressed a search for the arsonist, who, after setting fires in nine leading hotels, moved into another downtown district and set several more fires in trash piles.

Most of the blazes were extinguished before they did any serious damage, Fire Chief William Murray said. But a fire on the 14th floor of the Fielding Hotel, started in a linen closet, did an estimated \$10,000 damage.

The rash of fires, Murray said, were all set by the same person. The first hotel blaze began at 5:30 p.m in an unoccupied room on the fourth floor of the Stewart Hotel on Geary Street, Three minutes later, the fire broke out in the Fielding just across the

### ROBERTS GIVES SOME OPINIONS

PHILADELPHIA (AP) - How would a consistently winning pitcher like Whitey Ford of the New York Yankees do with weak-hitting club like the Phila delphia Phillies? Someone posed this question

Monday to Robin Roberts, sold by the Phillies to the Yankees after the 1961 season. Roberts, who won more games

for the Phillies than any other pitcher but who in recent years began losing more, gave this answer: "A good pitcher with a losing

team may not win as much but will have a respectable record." Addressing the Touchdown Club, the veteran right-hander did not condone his 1-10 record of the past season.

"A poor team does not explain a 1-10 record, he said, "It was awful-just like a bad dream. When you are 35 and have a poor record, some will refer to you as being over the hill. The best way to find out if you are over the hill is to he traded to the Yankees You've got to produce there or eise."

FIFTY YEARS AGO Fire's Origin Proves Baffling: Fire, the origin of which is most mysterious, occurred in the home of Mr. and Mrs. Robert A. Myers on Carlisle St., Monday evening completely destroying a number of articles of furniture, some valuable clothing and doing considerable damage to the building. The timely discovery of the blaze was all that prevented a very store and recently stored away for holiday sale in rooms close to the ones in which the trouble occurred.

The fire evidently started at the bed in the room over the door on Carlisle street but how this occurred is a matter of mystery, no theory at all being advanced. No one had been in the room for three-quarters of an hour before the fire was seen and there had been no lighted match or anything else from which a blaze could have started.

Demanded Money At Point Of Gun: The old McAllister homestead near town was entered Wednesday evening by an unknown man who frightened the two elderly ladies, Miss Martha and Miss Agnes McAllister, and received between thirty and forty dollars from them after binding the one with rope and covering the other with a revolver. Their brother, Samuel McAllister, was on the second floor at the time and he had started down stairs to help his sisters but the visitors told him that if he came down he Are these that walk on Hallowwould never go back alive and he decided to remain where he was.

The two ladies were sitting in their parlor about eight o'clock in the evening when there was a rap at the door. They thought it was a hunter and opened quickly. An unmasked man of medium height, wearing a black suit and slouch hat stepped in and after Then truly shall I be afraid, closing the door immediately drew a revolver, warning all to keep quiet.
